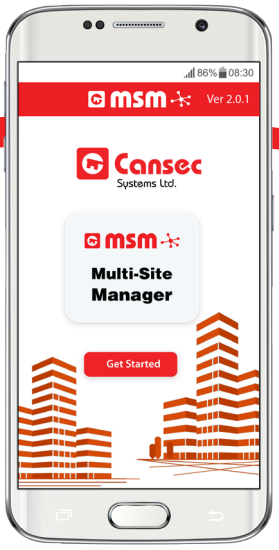
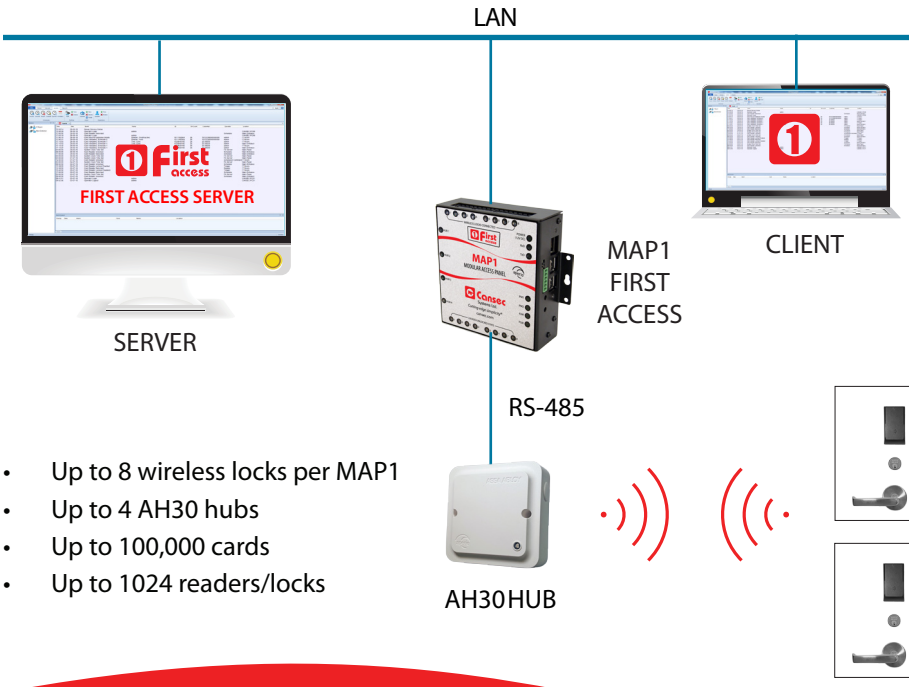
*Cutting edge simplicity®*

## EXPRESS/ADVANCED ON PREMISES SOFTWARE FOR APERIO WIRELESS LOCKS



**NEW – Supports Cansec MSM App**



- Up to 8 wireless locks per MAP1
- Up to 4 AH30 hubs
- Up to 100,000 cards
- Up to 1024 readers/locks

Cansec's First Access® software provides a powerful yet easy to use platform to manage the whole family of MAP access control panels. It is available in two versions: The free Express version for basic access control functions and Advanced for more complex applications. Both support up to 1,024 readers and 100,000 cards. **NEW** - First Access® Advanced software now supports the Cansec MSM app which allows you to control and manage your system from anywhere.

To facilitate deployment, First Access® On-Premises software automatically scans the local network and finds all connected MAP controllers. No need to assign each panel a static IP address. Using the First Access Client software, operators can quickly and easily void and validate credentials, edit Unlock Schedules, Holiday Schedules, Access Profiles, etc.

Everything required to make GO/NO-GO decisions is stored at the controller, guaranteeing a fast and consistent response regardless of the system size, network speed or server load.

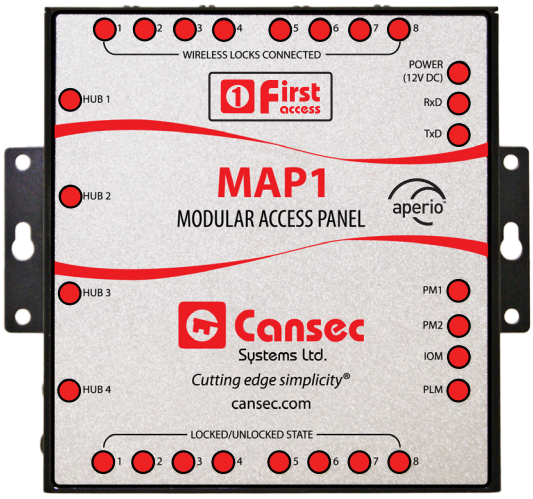
## EXPRESS/ADVANCED ON PREMISES SOFTWARE FOR APERIO WIRELESS LOCKS

### FEATURES & COMPARISON

| FIRST ACCESS® | EXPRESS/ADVANCED |
|---|---|
| Cardholder/user capacity | 100,000/100,000 |
| Reader capacity | 1024/ 1024 |
| First Access clients | 5/20 |
| Automatically finds MAP controllers | Yes/Yes |
| Up to 5 credentials per user | Yes/Yes |
| Real time TCP/IP based communications | Yes/Yes |
| Programmable access profiles and holidays | Yes/Yes |
| Entry & Exit reader per door | Yes/Yes |
| Automatic door unlock schedules | Yes/Yes |
| Alarms for forced entry/door held open conditions | Yes/Yes |
| Double-swipe privilege per user per door | Yes/Yes |
| Double-swipe as trigger | Yes/Yes |
| Uses Microsoft SQL database | Yes/Yes |
| Card + Pin | Yes/Yes |
| Elevator control | Yes/Yes |
| Email notifications/alarms | Yes/Yes |
| Timed anti-passback | No/Yes |
| Photo Popup | No/Yes |
| Door interlock | No/Yes |
| Card groups | No/Yes |
| Auxiliary input/output points | No/Yes |
| Local anti-passback | No/Yes |
| Scheduled commands & triggers | No/Yes |
| First Card In – Card Group | No/Yes |
| Software key required | No/Yes |
| Asure ID photo badging integration (Option)* | No/Yes |
| NVR support for Uniview (Option)* | No/Yes |
| Partition (Option)* | No/Yes |
| Enhanced Attendance Reporting (Option)* | No/Yes |
| ***NEW*** - Supports the Cansec MSM App | Yes/Yes |

### DIAGNOSTIC LEDS



To simplify installation, support and maintenance, the MAP1 contains twenty seven status LEDs which show, for example, AH30 hubs connected, locks connected, lock/unlocked state of each lock, power and several others.

**Supports all Aperio wireless locks:** aperio™
